

Collins stated in court they built the ladder ramp after I obtained a Peace Order on 6/26/04, because they could no longer use the boat ramp. This picture was taken two days after Hurricane Isabel, 9/20/03. The old railroad tie retaining wall is still there. The wall was torn down 12/20/03. The Collins built the ladder ramp with scraps from my fence in 2001 – 2002, and used it throughout the whole time. They wouldn't have needed a ramp if they thought they had access to my boat ramp and they certainly wouldn't have to lie as to when they built it!
